

# Build

## CORE LINE

*“Consistency you can count on.”*

## THE PROMISE

## Our best-selling, do-everything filament.

MatterHackers Build is our best-selling filament - the everyday workhorse trusted by more makers than any other line we carry. What sets it apart is consistency: tight color matching and dependable performance from one spool to the next, so the print that worked yesterday works again today. Available in the widest range of materials and colors, Build delivers professional-looking results at a price that still fits the bench.

### Consistent, spool after spool

Tight color matching and dependable performance, batch after batch.

### The widest range

PLA, ABS, PETG, TPU, ASA, Nylon and more - in every color.

### Pro looks, bench price

Professional-looking results that still fit the budget.
