

MATTERHACKERS

PRO

PREMIUM · PROFESSIONAL LINE

“Performance when it counts.”

THE PROMISE

Professional-grade filament, engineered to perform.

DESCRIPTION

MatterHackers PRO is our professional-grade line, engineered for work that has to perform. Every PRO filament is held to a tight $\pm 0.02\text{mm}$ diameter tolerance and rigorously tested for consistent, repeatable results — ideal for functional prototypes, manufacturing aids, and end-use parts. PRO spans precision staples alongside engineering-grade composites strong enough to replace machined metal, with country of origin clearly labeled on every SKU.

WHY PRO

- **Tight $\pm 0.02\text{mm}$ tolerance** — Rigorously tested for consistent, repeatable results.
- **Engineering composites** — NylonX, NylonG and NylonK for metal-replacing strength.
- **Transparent origin** — Every SKU labeled; Made in USA badge on qualifying materials.

MATERIALS

PLA · Tough PLA · ABS · ASA · PETG · Nylon · PPS · NylonX · NylonG · NylonK

PROOF POINT

$\pm 0.02\text{mm}$ diameter tolerance, rigorously tested

BEST FOR

- Functional prototypes
- Manufacturing aids
- End-use parts
- Metal-replacement parts

SEARCH / META DESCRIPTION

MatterHackers PRO is our professional-grade 3D printer filament: $\pm 0.02\text{mm}$ tolerance, engineering composites (NylonX/G/K), and clear origin labeling. Performance when it counts.
